Conversation: Special gifts from the Settles

Dear Thierry,

It is a great joy for me to be able to tell you about two developments that could be very valuable for you. In fact they could take your life in a whole new and wonderful direction.

Firstly, the Settle Foundation has decided to reduce the minimum term for Settle Grant eligibility from three months to one month. This makes it much easier for you to come to Fairfield and Maharishi Vedic City, in Iowa, for a month's "real vacation" of deep rest and extended practice of your Transcendental Meditation® and TM-Sidhi® program.

Secondly, during the coming holiday season (Dec 16 2011 – Jan 16 2012) the minimum term to receive the grant will be reduced even further to only two weeks. This is a fabulous opportunity. Please come spend your holidays with us and begin your New Year recharged with new energy and creativity.

The Settle Foundation established by Drs. Howard and Alice Settle provides a living expenses assistance grant of around \$800 in cash per month (\$26.25 per day) for Sidhas who participate in the full program of the Invincible America Assembly. To qualify for this grant you now need come for only **one month** at a time; or **two weeks** during these holidays. You can find full details of the grant and how to apply for it at:

<https://invincibleamerica.securesites.com/grants/>

Too often we come back from vacation feeling unrested and unsatisfied. This beautiful gift from the Settle Foundation could be the basis of that genuinely restful break from work that you and your spouse have been longing for for so long.

The purpose of the Settle Foundation grant is to help maintain and facilitate a permanent group of at least 2000 Yogic Flyers in Fairfield and Maharishi Vedic City. As you probably know, very rigorous published scientific research has demonstrated many times that when a

large group of people practice Yogic Flying together it has a huge effect of harmony and coherence in the consciousness of the entire nation. I am sure you agree with me that this could not be more necessary in these turbulent times. Please come and enjoy participating in this historic and blissful endeavour for a few weeks. There is nothing even remotely as effective that we can do for our country and our grandchildren.

Of course, practicing Yogic Flying in a large group has an even more profound effect for the participants themselves. People here in Fairfield and Maharishi Vedic City are reporting very beautiful ongoing experiences of higher states of consciousness and the limitless inner fulfilment which that implies. These are experiences worth sharing in. Please go to the Invincible America Assembly website www.invincibleamerica.org now and apply to join us for a month — or more.

With warmest best wishes,
Dr. John Hagelin
National Director
Maharishi Foundation
